MAK10P multi-purpose passive speaker with very compact design and high performance. It contains one 10" speaker and two 1,75" high frequency drivers.

Thank to its compact design, small size, low weight and flying accessories, it is an ideal speaker for a variety of applications.

PRODUCT DESCRIPTION:

Our satellite speaker MAK10A is an ideal solution for middle-size venues, concert halls and discotheques. Together with our MAK51 subwoofer it makes an ideal and very portable PA system adaptable to many different types of venues. It could be used as a part of a line array, stand-alone speaker mounted on pole mount or floor monitor.

- European Neodymium transducers.
- 12 mm Birch Plywood.
- Neutrik connectors.
- Poliurea paint finish.
- Horizontal and vertical pole mount.
